

If this is your first time at [GitHub](https://github.com), Click **Sign Up**

The screenshot shows the GitHub homepage in a web browser. The browser's address bar displays "https://github.com". The page features a dark background with a pattern of small icons. The main heading is "Where software is built". Below this, it states: "Powerful collaboration, code review, and code management for open source and private projects. Public projects are always free. Private plans start at \$7/mo." To the right, there is a sign-up form with three input fields: "Pick a username", "Your email", and "Create a password". Below these fields is a green button labeled "Sign up for GitHub". A small note below the button says: "By clicking 'Sign up for GitHub', you agree to our terms of service and privacy policy. We will send you account related emails occasionally." At the bottom of the page, there is a blue banner with the text "Want to use GitHub on your servers?" and a button labeled "Learn more about GitHub Enterprise."

Click **New repository**

The screenshot shows the GitHub homepage. At the top, there's a navigation bar with a search bar, 'Pull requests', 'Issues', and 'Gist' links. Below this, a 'GitHub Bootcamp' section provides a four-step guide: 1. Set up Git, 2. Create repositories, 3. Fork repositories, and 4. Work together. The main content area features a list of recent repository activity, including 'AmarBhatt created repository AmarBhatt/InventoryTracker', 'demondayza opened pull request IronSummitMedia/startbootstrap-freelancer#60', and 'kesselhocj24 commented on issue IronSummitMedia/startbootstrap-freelancer#57'. On the right, there's a section titled 'Repositories you contribute to' showing 'IronSummitMedia/startbootstrap...' with 458 stars. Below that, 'Your repositories' section lists 'Test-Free-Hosting', 'Daraghmeh-Digital', 'ArchHookah', and 'daraghmeh me'. A green '+ New repository' button is prominently displayed next to the repository list.

Type in a **Repository name**. This can anything you like but the shorter the better.

Click **I understand, update the default branch.**

The screenshot shows the GitHub repository settings page for 'Daraghmeh / hosting-free'. A confirmation dialog is open in the center, asking 'Are you sure?' with a warning that changing the default branch can have unintended consequences. The dialog has a red button labeled 'I understand, update the default branch.' and a close button (X). The background is dimmed, showing the repository's sidebar with 'Options', 'Collaborators', 'Branches', 'Webhooks & services', and 'Deploy keys'. The 'Branches' section is active, showing 'Protected branches' with a 'Choose a branch...' dropdown and a message 'No protected branches yet.' The footer shows copyright information for 2016 GitHub, Inc. and various links like Terms, Privacy, Security, Contact, Help, Status, API, Training, Shop, Blog, About, and Pricing.

Click the **project title** (Ex: hosting-free) to go back to repo's dashboard.

The screenshot shows the GitHub repository settings page for the repository 'Daraghmeh/hosting-free'. The page is viewed from a browser with the URL 'https://github.com/Daraghmeh/hosting-free/settings/branches'. The repository name 'hosting-free' is highlighted with a green box. The 'Default branch' section shows 'gh-pages' as the default branch. The 'Protected branches' section shows 'No protected branches yet.'.

Default branch

The default branch is considered the "base" branch in your repository, against which all pull requests and code commits are automatically made, unless you specify a different branch.

Commit new file

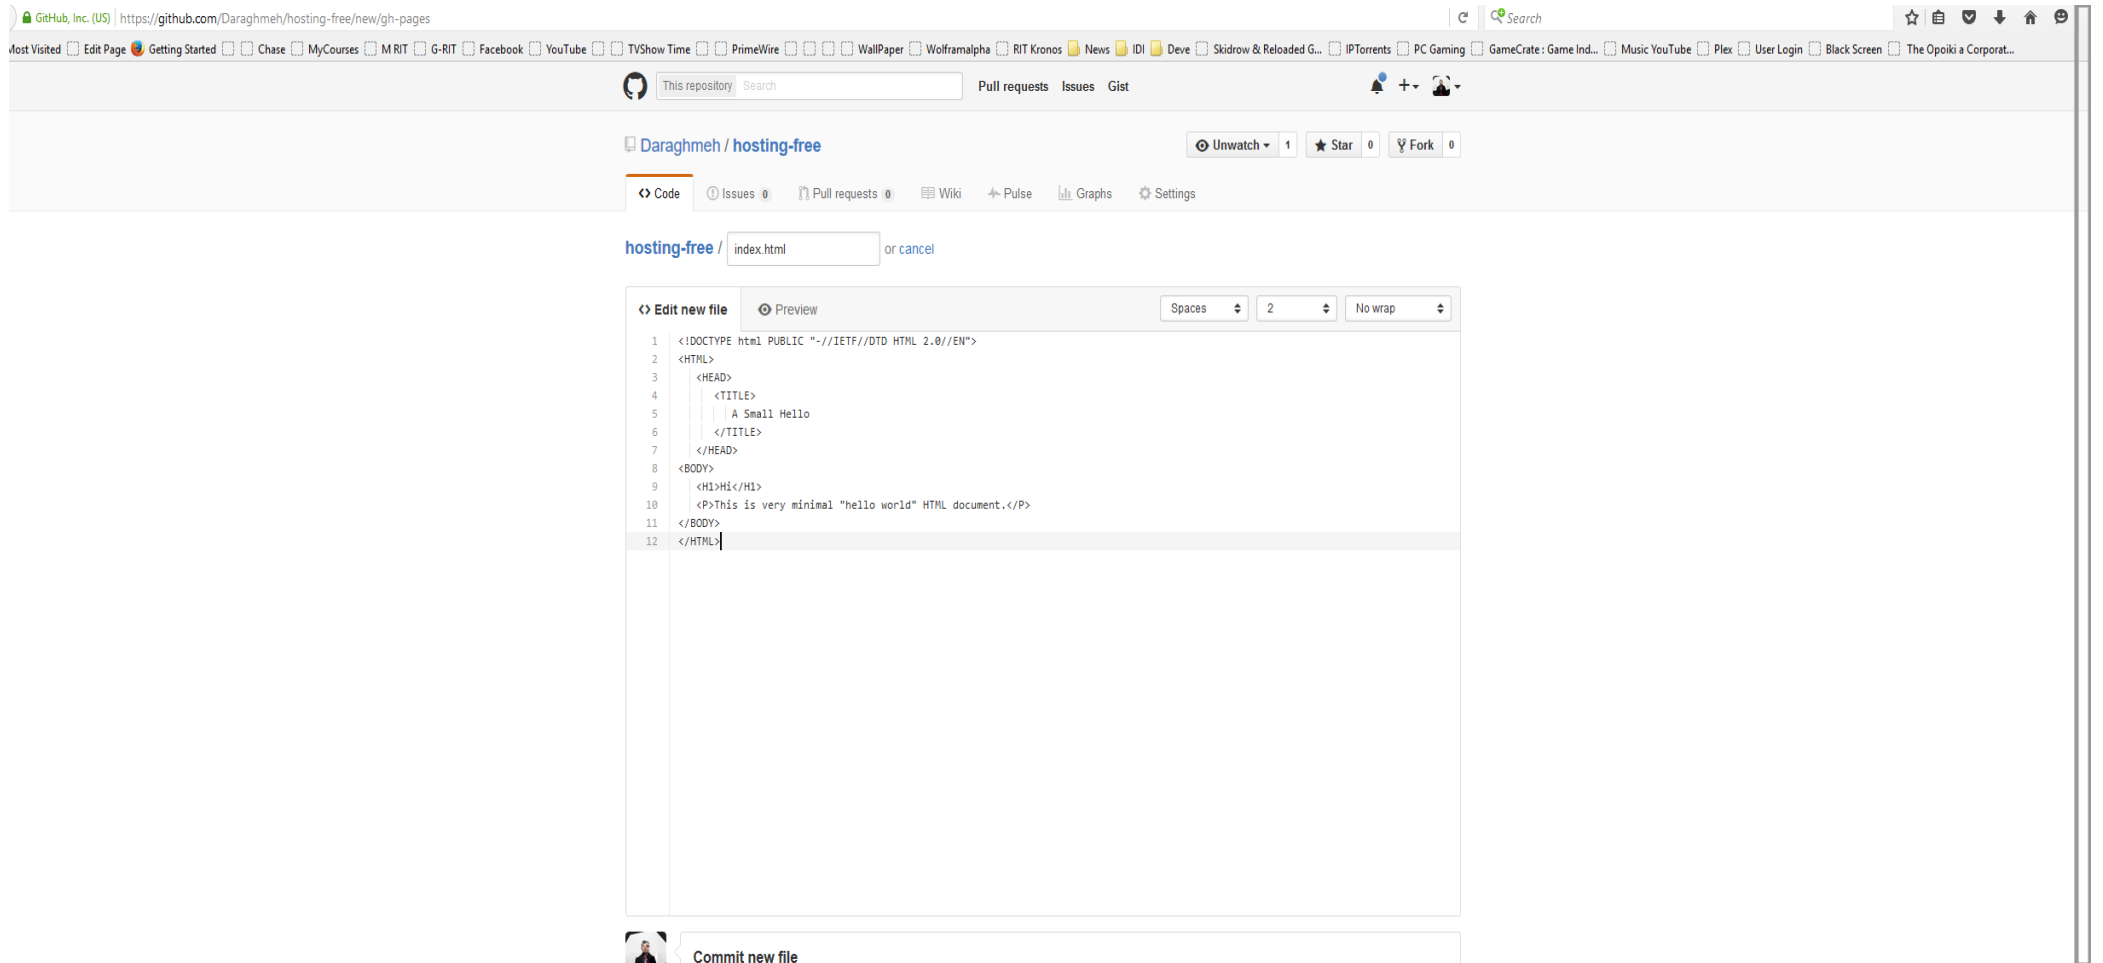

Paste in the provided default "Hello World" code
Code Sample: <http://pastebin.com/ukJRGk7R>

The screenshot shows a web browser displaying the GitHub repository page for 'Daraghmeh / hosting-free'. The browser's address bar shows the URL 'https://github.com/Daraghmeh/hosting-free/new/gh-pages'. The repository page includes a search bar, navigation links (Pull requests, Issues, Gist), and repository statistics (Unwatch, Star, Fork). The 'Code' tab is selected, showing the 'index.html' file. The file editor interface includes a 'Preview' button and a 'Commit new file' button at the bottom. The main area of the editor is a large, empty text box with a blue border, indicating that the code has not yet been pasted.

The Code should look like this.

The screenshot shows a GitHub repository page for 'Daraghmeh / hosting-free'. The repository has 1 star and 0 forks. The 'Code' tab is selected, showing the file 'index.html'. The code editor displays the following HTML code:

```

1 <!DOCTYPE html PUBLIC "-//IETF//DTD HTML 2.0//EN">
2 <HTML>
3   <HEAD>
4     <TITLE>
5       A Small Hello
6     </TITLE>
7   </HEAD>
8   <BODY>
9     <H1>HI</H1>
10    <P>This is very minimal "hello world" HTML document.</P>
11  </BODY>
12 </HTML>

```

At the bottom of the editor, there is a 'Commit new file' button.

Enter your **commit title**

Features

☒ Wikis

GitHub Wikis is a simple way to let others contribute content. Any GitHub user can create and edit pages to use for documentation, examples, support, or anything you wish.

☒ Restrict editing to collaborators only

Public wikis will still be readable by everyone.

☒ Issues

GitHub Issues adds lightweight issue tracking tightly integrated with your repository. Add issues to milestones, label issues, and close & reference issues from commit messages.

GitHub Pages

✓ Your site is published at <https://daraghmeh.github.io/hosting-free>

Update your site

To update your site, push your HTML or Jekyll updates to your gh- pages branch. Read the [Pages help article](#) for more information.

Overwrite site

Replace your existing site by using our automatic page generator. Author your content in our Markdown editor, select a theme, then publish.

Launch automatic page generator

Should look just like this, All Done!

Now you can edit the **index.html** from before and make it whatever you. Hint hint Bootstrap is the way to go!

Hi

This is very minimal "hello world" HTML document.
